12.5.3 The use of safety and tracking equipment.

The competitors are responsible for installing of equipment by themselves. The same device is used during both: the reconnaissance and the event. During the reconnaissance, the device has to be installed in visible place that Marshals and other Officials could identify it. **Device has to be installed inside the car before Rally start, or if the crew takes part in Test stage – before it start.** Safety and tracking equipment and information sticker has to be installed inside rally car according scheme specified in Appendix 12.

12.5.4 Safety and tracking equipment principles.

Safety and tracking equipment will be connected with monitoring station, which will store all the transferring data. All data will be also stored into the safety and tracking equipment. The device has autonomous power supply, which will maintain the functioning of the equipment during the entire event. The device has installed “SOS” and “OK” buttons. Every device has its unique serial number, which will be assigned to every crew. Geographical position of every crew will be monitored during reconnaissance and during the Rally at Rally Headquarters. **Attention!** The device during its operating time can spread specific radiomagnetic interferences what is typical for GSM connections. We kindly recommend putting other devices that can be sensitive for this Organizer’s issued equipment in maximum distance from the installed Organizer’s equipment.

12.5.5 Principles of sending “SOS” and “OK” signals.

Pressing “SOS” button it is allowed, when the crew has suffered an accident and an immediate help is required. In this case, the **Rally HQ also has to be informed by phone number, which will be written on informational Safety sticker.** Pressing “OK” button it is allowed, when the crew stopped and haven’t started to move for more than 30 seconds after suffering an accident or mechanical problems in the SS during the Rally and immediate help is not needed (also when the crew is trying to get back on the road and continue the Rally). **Attention!** After stopping in SS, the device system automatically sends “SOS” signal and the crew has 30 seconds to deactivate the system by sending signal “OK”, if the immediate help is not needed. The crew has to have mobile phone, switched on or to switch it on in 60 seconds after an accident, so Rally safety and Rally monitoring centre could contact with them.
