Organiser will provide a rally safety tracking system, which has to be used during reconnaissance in the reconnaissance car. If the system will not be used, it is a breach of the reconnaissance regulations. The progress of reconnaissance will be monitored via GPS system by rally officials. GPS data will be monitored also during liaisons. Evaluation of GPS data is within competence of Clerk of the Course. If reconnaissance vehicle is not equipped with a working tracking device, the crew will be penalized by Stewards. After reconnaissance, crews have to re-install the tracking device to the rally car.

9.3.3.

Each device has the unique serial number, that is assigned to a crew. During the competition, rally HQ is following the position and speed of each crew. GPS tracking device is connected with control centre, that gathers all the data. All data is also gathered in a device itself. Device has an autonomic voltage tension resource that is enough for all rally. Device “SOS” and “OK” buttons.

By pressing “SOS”, crew members inform about an accident, informing that they need help asap. In this case, it is also mandatory to call the phone number written in the sticker on the GPS device. If the car stopped in SS due to an accident or technical issues, by pressing “OK” crew members inform rally HQ about car being stopped for less than 30 seconds period also informing that no additional assistance is needed.

Attention! If a crew has stopped in a SS for a period longer, than 30 seconds, even in the case, if crew is still trying to continue participation, crew members must press the button “OK”. Crew phones must be turned on at all times (or switched on within 60 seconds), that rally HQ would be able to gather the information about the situation.

9.3.4. The order of GPS device return

Each GPS device must be returned to Rally HQ until the 9th of September (Saturday) 22:00 h. Each crew must pay a fine of 200 EUR upon receipt of GPS tracking device, if it is damaged or not returned at all.
